

## Gas hob 90

FCLH 905 G T WK BK

- Electronic ignition
- Black Glass Ceramic finish
- Halo Vision knobs
- Brass burners
- Professional cast iron grates

## Features

The hob is provided with Halo Vision, an innovative technology that warns you whether the burner is left ignited (white light under the knob) or if there's residual heat (red light). To make your cooking more efficient, you can regulate cooking time and set when to turn off the burners with extreme precision, thanks to the timer. The hob has 5 gas burners, including a brass Wok (4.0 kW), keypad safety, auto power-off timer, end-of-cooking beep, and Stop-Gas detection system.

It includes a surface cleaning scraper and a Wok reducer.
