Features

The Fulgor Milano built-in barbecue in AISI 316 stainless steel has 4 tubular gas burners, with a total power of approximately 15,2 kW. Special gas conversion nozzles are supplied as standard to allow the use with both NG and LPG. The in-line arrangement of the burners allows you to separate the cooking zones and also allowing the use of different temperatures. The BBQ is equipped with Gas-Stop safety devices. Among the accessories on request, in addition to the different types of grates, two different lid models are available (high and low).
