# PASSIONE

# ITALIANA

FULGOR MILANO draws its roots from the know-how of the area in which it was born and developed, from the desire to combine beauty and practicality, innovation with elegance, shapes with the rigorous style of design that interprets and anticipates the needs of everyday life in a continuous way.

If new technologies are introducing new horizons and new opportunities, new demands and new satisfactions into everyday life, which nourish the need for change and improvement that is inherent in human beings; the ability to choose in the overlap of the proposals is the result of greater information and knowledge that the new technological tools allow to acquire in ever less time but with a greater breadth and depth.

The conviviality of our life must be ensured by beautiful, easy-to-use and performing tools that allow us a greater availability of time for interpersonal relationships, to enjoy the presence of our family and friends sitting at a table to savor the results of our best culinary art.

This is why FULGOR MILANO offers more and more proposals for those who love to cook, to become the CHEF of their own home, both with the PROFESSIONAL and OUTDOOR lines for those who love to cook intensively and also outdoors, and with the new CLUSTER CONCEPT and URBANTECH in which, in addition to the technological content, new design solutions are offered to interpret those style and design trends that are constantly evolving, but with the aim of making them durable over time.

WITH FULGOR MILANO, LIVING BETTER IS POSSIBLE

## BUILDING MATERIALS

Entirely designed, projected and manufactured in Italy, is made of highly resistant 316 stainless steel, to avoid oxidation and guarantee a long-lasting life.

## BATTERY FOR IGNITION

Under the plate where is the logo, there is a housing for a long-lasting battery, that allows the ignition of the gas burners without the need for a connection to the electricity net.

## GAS SUPPLY

The barbecue is delivered with Natural gas settings, while it can be switched to LPG replacing the nozzles and making necessary adjustments.

## GAS BURNERS

4 in-line tubular gas burners provide 14 kW power flames for grilling and cooking.

NEW

# PROFESSIONAL OUTDOOR KITCHEN

## TEPPAN YAKI COOKING

Cooking different varieties of food directly on the surface, 2 tubular aluminum gas burners with evenly distributed flame ports conduct heat to the plate for optimal cooking performances at maximum power.

## FAST AND EASY CARE AND CLEANING

Thanks to the structure and cooking surfaces in stainless steel, cleaning the barbecue is easy and practical. Stainless steel is a hygienic material, it does not allow bacteria to lurk and does not alter the taste of food in contact. Each element is inserted into the structure with a joint system, everything is easily disassembled. Grids and plate are easily removable and washable.

## GRILL COOKING

Under each stainless steel grill, is provided a powerful tubular gas burner which gives the power to grill food by requirements.

## LIDS

There are two lid options available: a thin lid that covers the cooking surface after cooking, or a tall roasting lid equipped with a temperature measurement device to ensure perfect roasting and keep warm functions.

## NO ELECTRICAL CONNECTION

The barbecue is supplied with the predisposition to insert a buffer battery that commands the ignition of the gas burners; no connection to the main power is required.

## SOLID KNOBS

Controls are ensured by robust brushed metal knobs, which guarantee easy handling and precise settings.

## MATTE BLACK FINISH

The matte black enameling attributes a unique style to the FOBQ 1000 G MBK outdoor barbecue and its matching lids.

## ERGONOMIC CONTROLS

The robust metal knobs and the front handles of the lids are easy to use and allow to better manage both the burners operations and the closing and opening actions of the lids.

## CAST IRON TEPPAN YAKI PLATE

This new version of the barbecue with the elegant matte black finish, includes a Teppan Yaki plate made of high-strength enameled cast iron.

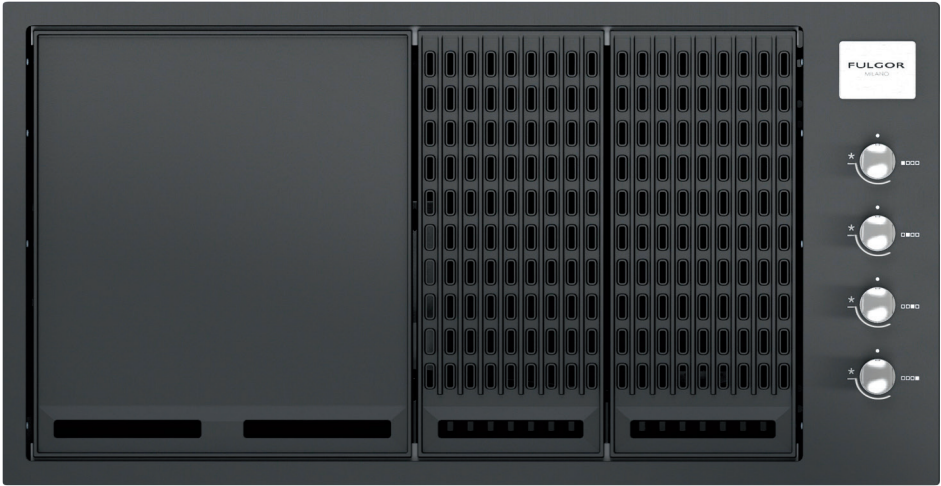

## CAST IRON GRATES

The grates made of enameled cast iron guarantee the perfect cooking of the foods to be grilled. Easier to maintain, they keep their look over time.

DECLARATION OF THE MANUFACTURER

The manufacturer declares that, depending on their type, the products in this catalogue conform to the fundamental requirements of European Directives and, for this reason, the product bears the CE mark, for which this declaration of conformity was issued and made available to market supervisory bodies.

DISPOSAL OF USED APPLIANCES

At the end of their useful life, these appliances may not be disposed of with normal urban waste, but must be delivered to a collection and recycling point for electrical and electronic equipment.

This is indicated by the symbol shown on the product, in the instruction manual or on the packing materials.

The materials used in this appliance can be reused in conformity with their intended use.

Thanks to the reuse, recycling or other forms of recovery of unusable appliances, you will make a contribution to protecting our natural environment.

You can obtain information about the disposal points for unusable appliances from your local authorities.
