

Carbon Filter Kit

FCHF 49

- Stainless Steel Finish
- Hood accessory
- Oven Regenerable Kit
- Easy Installation

FEATURES

The FTIHD 1260 / 960 and FTHD 1200 / 900 hood carbon filter kit is designed to provide excellent air purification in home kitchens. The advanced activated carbon technology in the filters effectively absorbs unpleasant odors, fumes and grease, ensuring a fresh and clean kitchen environment. With their ease of installation, this kit allows users to keep their hoods clean and efficient in filtering air, thus improving the quality of the kitchen environment.
