

Microperforated Tray

STEAM POT WITH COVER

- Made of Stainless Steel
- Perfect for 45 steam ovens
- Microperforations allow perfect distribution of heat and steam
- Equipped with lid

FEATURES

The micro-perforated tray for 45 ovens is a versatile accessory designed to ensure flawless cooking, especially when you want to use the steam mode. Made of stainless steel, it is strong and durable while the micro-perforations on the tray allow even distribution of heat and steam during cooking, ensuring excellent culinary results. The size suitable for 45 ovens makes this tray an ideal choice for those seeking precision in cooking, offering the ability to make the most out of their oven's functionality.
