## Features

The control panel includes various functions, such as preset cooking programs and the ability to modify recipes. Thanks to the temperature probe (Meat Probe), perfect results can be achieved: it will be easy to monitor the cooking progress by measuring the core temperature of the food. The standard accessory kit includes a temperature probe for food, a perforated tray with a lid, a stainless steel support for the perforated tray, a stainless steel tray, a flat grill, and a jug for water.
