

BUILT-IN FREEZER 36"

36" OVERLAY BUILT-IN FREEZER

Description

Our overlay column freezers are both powerful, elegant and provide commercial grade performance. Custom panels can be installed to provide a completely integrated look with adjacent cabinets and feature a brilliant white aluminum interior with metal bins on full extension stainless glides. All units feature an accessory ice maker, with food preservation being the priority. Combining elegant design and commercial quality, ensures optimal food preservation performance. A dedicated compressor and evaporator provide consistent and precise temperatures throughout.
